Technical Stuff:

Lay of the Land:

- Team of 9 ppl on Communications/Digital/Tech
- Expanded, weak in Tech Hardware
- Need access to registrations onsite
- Net cafe
- Blogger room
- Press room (major network, etc)
- 5 film & video teams, ppl editing and posting stuff in real-ish time
- Lots of wired and wireless networking
- Live streaming
- Dedicated T1 line
- Run livecast around the building
- What are other things we could be doing
  - User-generated content
    - Twitter flash display?
  - Aggregator for all kinds of digital media, blog, photos, feeds

What do you have now:

- Cameras
- Partners with editing
- 29 IPs per T1 - have three around conference center
- High bandwidth, one dedicated for press room
- One for registration // cafe area

## Registration is open for RubyConf 2009

2009-09-11

Registration is open for RubyConf 2009. We hope you're as excited about it as we are. Click [here](#) to go to the registration page.

While you're at it, you might want to register for the first ever JRubyConf, which is being run by Engine Yard and held in the same venue the day after RubyConf. JRubyConf is free, but space is limited so if you want to attend be sure to register now.

## RubyConf Schedule

2009-09-01

Thanks to the many of you that submitted proposals for RubyConf 2009! We are in the process of selecting the final program, and it's shaping up to be excellent as always.
